

FACADECLEAN HC

A concentrated bleach cleaner for immediate and deep cleaning on contaminated mineral surfaces.

Product description

Facadeclean HC is a concentrated cleaner that allows immediate and deep cleaning. Facadeclean HC is based on highly concentrated sodium hypochlorite and various additives for the stabilization and optimization of the cleaning effect. The product also contains a strong perfume that significantly reduces the smell of the bleach. Facadeclean HC removes atmospheric, organic and green contaminants from surfaces without the need of rinsing. Facadeclean HC restores the original appearance of materials without affecting them.

Use

Facadeclean HC is a universally applicable product and can be used on facades, roofs, terraces, cladding, balconies, galleries, monuments, paving and fences. Facadeclean HC can be applied to various materials including concrete, slate, brick, unpolished marble, stucco, sandstone, basalt-like stone and granite.

Characteristics

- Biodegradable
- Can be used on almost all types of stones. Very fast and active effect
- Removes all types of façade contamination
- Self-cleaning

Technical data

Colour:	Light yellow
Odour:	Eucalyptus
pH:	14
Contains:	Sodium hypochlorite

Application conditions

Facadeclean HC can be used in all dry weather conditions.

Instructions

1. Apply Facadeclean HC undiluted or diluted with water depending on the contamination. Light pollution: dilute 1: 2 Medium soiling: dilute 1: 1 Extreme pollution: undiluted
2. Apply Facadeclean HC with a low pressure sprayer or brush.
3. Apply to vertical surfaces from bottom to top.
4. Rinsing is not necessary, however it can be effective to remove the last residues. In that case, wait until Facadeclean HC has done its job (20-45 minutes).
5. Repeat the treatment if necessary.
6. Optional: Protect the substrate with a product from the Floorguard or Mavroseal line.

Packaging

10 L

Consumption

Consumption 5-15 m²/L. Consumption strongly depends on the nature and degree of pollution

Practical information

- Do not mix with other products. Be especially careful with acidic products and ammonia because of toxic hydrogen chloride fumes.
- Do not apply on hot surfaces or in direct sunlight.

- Due to the properties of the active substance in the product, the effect will deteriorate (after about 6 months). To overcome this, the product can be applied undiluted instead of the recommended dilutions.
- Make sure that the surface is completely rinsed and dried after cleaning with Facadeclean HC (before the surface is treated without coating or impregnation).

Storage

Can be stored for at least 6 months in original unopened packaging. Store in the original packaging in a ventilated, dry place away from direct sunlight.

Health and safety

Causes severe burns and eye damage. Avoid skin and eye contact, wear suitable gloves, protective clothing and safety goggles. When in doubt, always consult the safety data sheet or our R&D department.

Technical support

Mavro is ISO 9001 certified: your guarantee of quality, in terms of products and advice. Our technical consultants and R&D department are always at your service. We are happy to look at your problem or wish with you. Help you with our products or find a solution if it does not yet exist. Call, e-mail or drop by.
